

TRANSITION BRO GWAUN

MOVING COMMUNITIES TO A GREENER FUTURE

Community Climate Fund Expression of Interest (EOI) Form 2024

Aim: to get more people doing practical activities, small or big,
which address the climate and nature crisis.

GREEN GRANTS

for small businesses and community groups

TBG's Community Climate Fund has given over £76,000 to businesses and groups in North Pembrokeshire to help them set up practical climate action projects involving their community. We've funded 20 organisations since 2022, and more grants will be available in 2025. These grants are for organisations that want to do something to help nature and the climate, particularly those that, as yet, haven't had the resources, knowledge or expertise to develop such a project.

If you have an idea for a project you think your business or group could undertake, please complete this Expression of Interest form, handwritten or online at www.transitionbrogwaun.org.uk

We'll contact you to let you know if we think it's a viable idea and how we might be able to help you develop your project.

Group/business details:

Name of group/business	
Contact name	
Address for correspondence	
Contact telephone number	
Contact email address	

Your ideas for a project (no more than 500 words)

Outline briefly (below and/or on a separate sheet) the idea that your business or community group has for a project to combat the climate and nature crisis. Tell us what you are thinking of doing, approximately how much money you might want from us, and what you would spend the money on. Be clear about what you hope to achieve by the end of the project.

What happens next.

Thank you for completing this Expression of Interest form. Please send a copy or picture of it to enquiries@transitionbrogwaun.org.uk.

The deadline for submitting EOIs is 15 Nov 2024.

We'll contact you about your idea and whether we can help you develop it further. We may be able to help you plan, resource and cost your project or link you with organisations with specialist knowledge or other people who have developed similar projects.

You will have until 13 January 2025 to develop your project and produce a detailed application form. Successful applicants will receive grants - anything from a few hundred pounds up to £5,000 - from March 2025.
